

ROLLER BLINDS COLLECTION

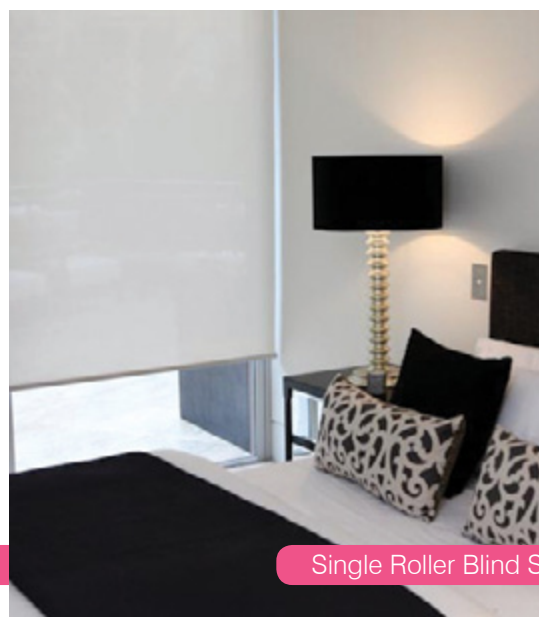

Discovering the perfect look for your home is easy with our expert team.

Linked Roller Blind System

Double Roller Blind System

Single Roller Blind System

ROLLER BLINDS

Sun and shade are at your command! Classic Roller Blinds give the soft look of a curtain, with the convenience of neat roll-away storage. Roller Blinds are discreet when pulled up and tasteful when pulled down. They are available in dozens of colours, patterns and texture - working wonders for all interiors. For that extra 'WOW' factor and convenience, why not automate your Roller Blinds?

TECHNICAL INFORMATION

Standard Single System

This system uses a single roller blind custom-made from the options below for your window or door.

Double & Slimline Double Roller

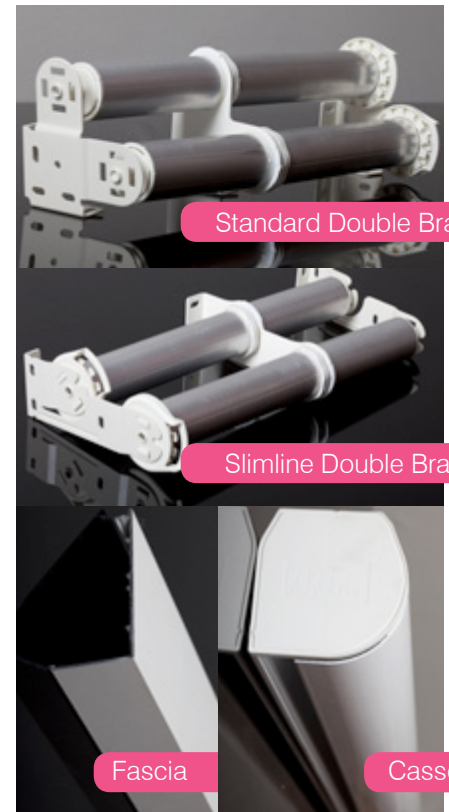

The front facing blind uses fabric to add texture, colour and pattern to add style to your room whilst the back roller provides continuous coverage for your window.

Combine functionality and the good looks. Position a Blockout Blind in front of a Light Filtering Blind and enjoy light through the day and perfect nights rest with the Blockout when sleeping.

Wynstan have pioneered the Slimline Double Roller Blind which can fit into very small window reveals

Linked & Spilt System

A **Split System** is where blinds will operate over a line series of window or door panes. The system allows you to have each blind independently operated, e.g. the blind could be lower to cover the pane window yet over the sliding door the blind can be rolled away allowing access. In the **Linked System** all blinds covering the separate window panes are controlled at one point, lowering and raising the blinds simultaneously.

Standard Double Brackets

Slimline Double Brackets

Fascia

Cassettes

Design Options

Every blind is custom-made, so you have the freedom to select your chain, bottom rail and fascia.

FABRICS

Blockouts - privacy and darkness
Sunscreen - blocks heat, allows light & view
Transluents - sheer, lets the light in

COLOURS

With a huge range of texture, patterns and colours to choose from.

FASCIA OR CASSETTES

The fascia box are available in a square or curved shape. Cassettes fully enclose the fabric roll. All are colour co-ordinated to match your room.

BOTTOM RAILS

Select from round or contemporary tear drop bottom rail.

CHAIN OPTIONS

The chains are available in white, white birch, black or silver metal. Alternatively you could enjoy the convenience of motorised roller blinds.

FEATURES & BENEFITS

1

Quality Materials

All componentry is made in the USA to extremely high standards, increasing the endurance and product life-span.

2

Saving You Money

Many of our fabrics can actually help lower your electricity bill by keeping heat out in summer whilst keeping heat in during the winter months

3

Privacy

Privacy at home is something we all value. Rollerblinds instantly add this to your property.

4

Low Allergenic Fabrics

We favour low allergenic fabrics and fire retardant fabrics wherever possible.

5

Child Safety

We install child safety devices on all products to keep little ones safe.

6

Satisfaction Guaranteed

Perfect installation is assured with our specialist team, and peace of mind with our Wynstan 3 Year Warranty.
