

PROTECT YOUR HOME

Keep your home secure with Crimsafe, manufactured and installed by Wynstan. Crimsafe Security Screens feature Crimsafe's patented security mesh clamp system and cannot be cut, kicked down or pried open. Crimsafe Security Screens are fixed in place and will not budge and are custom made to fit any window or space.

TECHNICAL INFORMATION

Mesh

Crimsafe Security Screens feature Crimsafe Tensile-Tuff® Security Mesh, which is made of 304 Grade Stainless Steel.

Clamp System

Crimsafe Security Grilles feature a patented Security Mesh Clamp System. While inferior products simply glue or wedge mesh into a frame, Crimsafe sandwiches Tensile-Tuff® Security mesh between two serrated pieces of aluminum, and then screws this mesh into place. This results in a strong, vice-like grip which has a much stronger tolerance to force than many competing products.

Custom Made

Crimsafe Security Grilles are custom made in order to perfectly fit your window. This ensures a clean finish and superior protection.

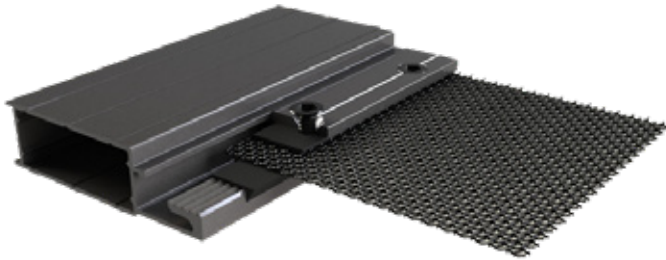

Color

Crimsafe Security Screens are available in various different colors, ranging from shades of white and gray, to brown and blue. Various woodgrain tones are also available and offer a look that is impressively realistic.

Heat Control

Crimsafe Security Grilles also offer superior heat control. When a Crimsafe® Grille is applied over the whole area of a single glazed window, it will improve the window's 'Solar Heat Gain Coefficient' by up to 53%.

BENEFITS

Cross section of mesh and frame

Excellent Security

Crimsafe are the world leaders in home security.

Heat Control

Crimsafe Security Screens offer superior heat control.

Airflow

Crimsafe Grilles provide excellent security as well as stopping flies, but still allow air to flow into your home.
