

CRIMSAFE SECURITY DOORS

PROTECT YOUR HOME

Keep your home secure with Crimsafe, manufactured and installed by Wynstan. Crimsafe Doors feature Crimsafe's patented security mesh clamp system and cannot be cut, kicked down or pried open. Crimsafe Doors can be hinged, folding or bi-fold, meaning there is Crimsafe solution for almost any doorway.

TECHNICAL INFORMATION

Mesh

Crimsafe Security Doors feature Crimsafe Tensile-Tuff® Security Mesh, which is made of 304 Grade Stainless Steel.

Clamp System

Crimsafe Security Doors feature a patented Security Mesh Clamp System. While inferior products simply glue or wedge mesh into a frame, Crimsafe sandwiches Tensile-Tuff® Security mesh between two serrated pieces of aluminum, and then screws this mesh into place. This results in a strong, vice-like grip which has a much stronger tolerance to force than many competing products.

Triple Lock

All Crimsafe Doors come fitted with a triple lock, which is crafted from stainless steel for superior strength and meets all Australian quality standards.

Mid rails

For extra security, mid-rails can come standard with your Crimsafe Doors. Mid-rails may help strengthen the resistance of your door's lock against a jemmy attack and protect the hinges by reducing an intruder's ability to lever it from the wall.

Color

Crimsafe Doors are available in various different colors, ranging from shades of white and gray, to brown and blue. Various woodgrain tones are also available and offer a look that is impressively realistic.

BENEFITS

Cross section of mesh and frame

Excellent Security

Crimsafe are the world leaders in home security.

Streamlined

Crimsafe doors offer a sleek design and contemporary style.

Airflow

Crimsafe doors provide excellent security as well as stopping flies, but still allow air to flow into your home.
