

CRIMSAFE SAFE-S-CAPE

External opening

EMERGENCY EXIT SYSTEM

The Safe-S-Cape is a unique key-less exit system. Even though Safe-S-Capes are a quick release emergency exit grille, they are still incredibly difficult to penetrate from the outside as they feature the same screw clamp system as traditional Crimsafe grilles.

TECHNICAL INFORMATION

Mesh

Crimsafe Safe-S-Capes feature Crimsafe Tensile-Tuff® Security Mesh, which is made of 304 Grade Stainless Steel, making it much stronger than other meshes.

Clamp System

Crimsafe Security feature a patented Security Screw Clamp System. While inferior products simply glue or wedge mesh into a frame, Crimsafe sandwiches Tensile-Tuff® Security mesh between two serrated pieces of aluminium, then screws this mesh into place. This results in a strong, vice-like grip which has a much stronger tolerance to force than many competing products.

Hinged

Crimsafe Safe-S-Capes can be hinged at the top or sides and made to swing outward or inward. This makes them suitable for most window openings (size permitting).

Color

Crimsafe Safe-S-Capes are available in a vast range of standard colors and can also be power-coated in a broad range of other colors.

BENEFITS

Excellent Security

Crimsafe are the world leaders in home security. Crimsafe Safe-S-Capes allow an easy exit from inside, but remain incredibly difficult to penetrate from the outside.

Quick Exit

A Crimsafe Safe-S-Cape allows for a quick exit in an emergency.

Satisfaction Guaranteed

Crimsafe Safe-S-Capes come with a 10 Year standard Warranty.
