

Duo-Lite shade

HONEYCOMB SHADES

Top Down Bottom Up
option available

PERFECT FOR ANY WINDOW

Suitable for windows of all shapes and sizes, Honeycomb Shades are advanced pleated blinds that feature a unique honeycomb structure resembling honeycomb. Air passing through the blinds gets trapped in the structure, assisting in noise reduction and aiding in energy efficiency. Honeycomb Shades are also one of the few window coverings available which can be specifically designed to cover skylights.

TECHNICAL INFORMATION

Colour and fabric

The Honeycomb Shades fabric range includes different fabric ranges with multiple colors in each range.

Sizing

There are 6 cell sizes and style to suit your desired look and better suit your energy efficiency needs. Including: 3/8" single cell, 9/16" single cell, 3/4" single cell, 1 1/4" single size and 1/2" double cell, 3/4" double cell.

Flexibility

The Honeycomb Shades operating system gives you flexibility on light and privacy options. On the Top Down Bottom Up (TDBU) option, you can bring the top down while having the bottom fully closed (see main image on front page).

Skylights

The Honeycomb Shades are one of the few products that work effectively inside a skylight, to either block out or filter light entering the room.

Duo-Lite shade option

This option allows for ultimate versatility in light and privacy control by making use of both light filtering and blackout fabrics. It is similar to the TDBU option, but rather than resulting in empty space when the top is down, a light-filtering fabric is exposed. (top left image on front page)

Energy Efficiency

Wynstan Honeycomb shades can significantly protect your home from energy losses by trapping air between the pocket architecture – creating a more comfortable living environment year-round, while helping you leave a smaller carbon footprint.

BENEFITS

Easy to clean

Honeycomb Shades are created from anti-static non-woven polyester, meaning they are easy to clean and maintain.

Minimal light gap

Wynstan Honeycomb Shades fit tightly within a reveal with the smallest light gap possible.

Sleek stacking system

When pulled right up, the stack is very small and does not obstruct views to the outside.

Energy Saving

A unique honeycomb structure saves energy by trapping air, making it easier to heat and cool your home. Cellular Shades provide the most insulation compared to any other soft window furnishing product.

Satisfaction Guaranteed

Quality installation is assured with our specialist team, and peace of mind with a Wynstan 3 year warranty.**
